DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barry Haley and Mr. Jerry Haynes on 06/09/05.

The application has been amended as follows:

In The Claims

Cancel claim 10.

9. (amended) A system for coherent optical beam modulating comprising:
a coherent optical signal, where the optical signal is at least one of a
transmitted signal and a reflected signal; and
at least one modulating array includes an asymmetric stepped quantum well capable of reflecting
and transmitting the optical signal, where the at least one modulating array continuously affects
~~the optical signal a detected spectrum's intersubband separation~~ with respect to a voltage bias
applied across the at least one modulating
array.

2. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicant's arguments in that the amended claims overcome the rejection; and that the array

structure using asymmetric stepped quantum well where the voltage bias influences a detected spectrums intersubband separation is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
